CORE STACK

React / Next.js
TypeScript
Node.js / Express
Tailwind CSS
REST APIs

SKILLS

Frontend
React, TypeScript, Tailwind
HTML5, CSS3, JavaScript ES6+

Backend
Node.js, Express
SQLite, REST APIs
OAuth, Authentication

Mobile
Java, Kotlin
Android SDK

Tools & AI
Git, Docker, Vite
AI API Integration

PROFESSIONAL SUMMARY

Full stack software engineer with 5+ years of experience specializing in production-ready web applications, AI-powered platforms, and mobile solutions. Delivers end-to-end projects combining clean architecture with exceptional user experience — from concept to deployment. Expertise in React, Node.js, TypeScript, and modern tooling. Open to new opportunities.

FEATURED PROJECTS

Klingmotionai

AI-Powered Video Generation Platform

Engineered a production-ready AI video generation platform enabling users to create synchronized character animations. Scalable full-stack architecture with file uploads, real-time processing, and secure authentication.

React | TypeScript | Node.js | Express | Tailwind CSS | Vite | Google OAuth

ModXnet.com

Full-Scale Gaming Distribution Platform

Designed and developed a comprehensive gaming distribution platform with user authentication, game catalogs, community reviews, and full admin dashboard. Complete content management ecosystem.

Node.js | Express | SQLite | HTML/CSS/JS | Passport.js | Nodemailer

Streaming App

Cross-Platform Game Streaming Client (Android)

Developed a high-performance Android client for PC game streaming with sub-frame latency. Native hardware decoding, on-screen virtual controllers, and network device discovery for a console-like experience on mobile.

Java | Kotlin | Android SDK | C/C++ (NDK) | JNI

KEY STRENGTHS

5+ years professional experience · Clean code & secure architecture · 1-hour response time on inquiries · Web development, gaming platforms, e-commerce, admin panels ·

Mobile-first responsive design · API integrations & AI tools · Performance optimization
